After April 2016 we started offering only algo based trades for Nifty

The algo system took some time to develop and test

Regular trades started only in June.

Because of Brexit, we did not take the buy signal which came on 22nd June 2016.

This was to avoid the risk which was unforeseen. Afterwards the market jumped everyday and we could not get proper position.

The Brexit signal lasted for 5 weeks.

Afterwards market is rangebound so we traded some intraday trades only.

Now the positional trades have started as per algo.

Now we will be updating site every quarter only.
